

MURRAY LATTA

PROGRESSIVE MACHINE INC.

INDUSTRIAL MACHINERY

Mechanical Designer – Surrey, BC

Join Our Team

Your career starts here. When you come to work with us at Murray Latta Progressive Machine (MLPM), you'll have so much more than a job. You'll join a well-established business with a very long and outstanding reputation in the industry. As an organization, we offer a supportive community of peers and managers, where your passion and expertise can shine and be noticed. In our team-based work environment, your opinion will be valued and you can take pride in delivering the best of custom manufactured equipment and services in the industry.

We are looking for an enthusiastic **Mechanical Designer** to join our Engineering team. If you have a sound understanding of mechanical or structural design, strong drafting skills, and are comfortable in a shop environment this is the ideal role for you.

Key Responsibilities (include but are not limited to the following):

- Develop creative solutions for fabricated and machined industrial equipment and components.
- Work as part of the team to help develop our next generation of innovative products.
- Produce shop production drawings as needed in a timely manner.
- Work closely with production staff to support the manufacturing process.
- Produce bills of materials and other engineering documentation.
- Communicate with external customers as needed.

Qualifications and Experience:

- Proven mechanical drafting and design aptitude with a strong attention to detail.
- Advanced skills in Solidworks (min. 2 years using Solidworks in working environment) and proficiency with AutoCAD and Excel.
- Strong understanding of mechanical drawing standards, dimensioning, and tolerances for manufacturing.
- Understanding of revision control process for drawings and documents.
- Understanding of industrial machining, welding and assembly techniques, and materials
- Excellent communication, time management, and organizational skills.
- Proficiency work Word, Excel, and Outlook

Progressive Solutions, Traditional Values
