

**MURRAY LATTA**  
**PROGRESSIVE MACHINE** INC.

## CHAIRLIFT BIKE RACKS

*Chairlift Bike Rack Manufacturing*

**Murray Latta Progressive Machine** operates in a full-service, fully-equipped 60,000 sq ft manufacturing facility, and has been a trusted manufacturer to the ski lift and tramway industry for over 60 years.

### COST EFFECTIVE

- / Less staff required to load/unload
- / Reduction in damage to bikes and equipment compared to competitor bike racks

### SAFE & RELIABLE

- / Quick & easy to load/unload
- / Bikes do not have to be lifted, preventing injury
- / Bikes fit securely, preventing falling
- / Bikes can be loaded by customer

### QUALITY DESIGN & MANUFACTURING

- / Racks fit all standard bike sizes
- / Racks can be modified to all chairlift & gondola manufacturers
- / Available in 2, 3 or 4 bikes per carrier

\* *We also offer installation and service/repair on all chairlift bike racks we manufacture.*

# MURRAY LATTA PROGRESSIVE MACHINE INC.

**Murray Latta Progressive Machine** is the official 2009 merger of two very established companies: *Progressive Mill Supplies* (est. 1954) and *Murray-Latta Machine* (est. 1918). Prior to the merge, both companies had been working together for over 50 years, with common ownership since 1988. **Murray Latta Progressive Machine** has since acquired the assets of *Brunette Industries* (est. 1920's) in 2013, resulting in the formation of a separate distribution company: *Brunette Machinery Company*.

At **Murray Latta Progressive Machine** we are so much more than a typical machine shop. What started out in 1918 with *Murray-Latta Machine* as a custom machinery manufacturer and steel fabrication shop, quickly expanded to include field millwright and project management services. Through *Progressive Mill Supplies* beginning in 1954, we've been distributing capital equipment, parts and consumables to the forestry sector, while offering equipment upgrades, installation, maintenance and repair. And with the formation of the new *Brunette Machinery Company*, we've expanded our presence to include the Brunette product lines and their 70+ years of design and manufacturing experience in the forestry sector.

What hasn't changed is our pride in workmanship and dedication to providing the highest customer service experience; this has been the key to our longevity. We hire skilled, experienced and certified tradespersons, and we make sure all equipment and materials we use are fit for optimal performance. We do this because we believe in putting quality and safety first – because it isn't just our reputation on the line, it's yours as well. We stand behind our work, every time. Guaranteed.

So now, you'll understand our motto:  
**Progressive Solutions, Traditional Values.**
